

Final Class: Oral Presentation Format

Please come on time. We will start automatically at 11:30 AM.

We will put up the order, randomly selected, on the board. Each group has a total of 12 minutes including questions. This means, please aim to finish your presentation at the 9-10 minute mark. I will give a hard cut off at the 11 minute mark. The next group must be given 1 minute to set up their presentation during the previous group's question time. You will use your own laptop to avoid any issues.

While we are grading each group, we will also give each person a randomly selected group to evaluate. This will not count towards your project grade but towards participation and a prize! After you complete this form, hand it to Corey who will keep a tally. If everything goes on time, we should finish with 2 minutes left to announce the winner! Thus, get familiar with the format below because this is what the form looks like...

GROUP #

In our template, we look at the following:

- Subject Knowledge
- Clarity
- Organization
- Visuals
- Eye Contact
- Body Language
- Poise
- Enthusiasm
- Speaking Skills -"Storytelling"

Based on this, please award a score to the group you were assigned between 0 and 10 (10 being 100%).

Final Score:

Each group will have 4-5 forms, so please pick this up before 11:30 AM and just randomly. The group with the highest average score will get the prize!
